The Université de Moncton has been offering programs in French as a second language to various age groups across North America for well over thirty years. This program is designed specifically for students and adults who want to improve their language skills and engage in everyday social situations that require a higher level of French-language competency, and who want to improve their reading and writing skills through the use of French and Acadian literature with discussions on current topics of interest.

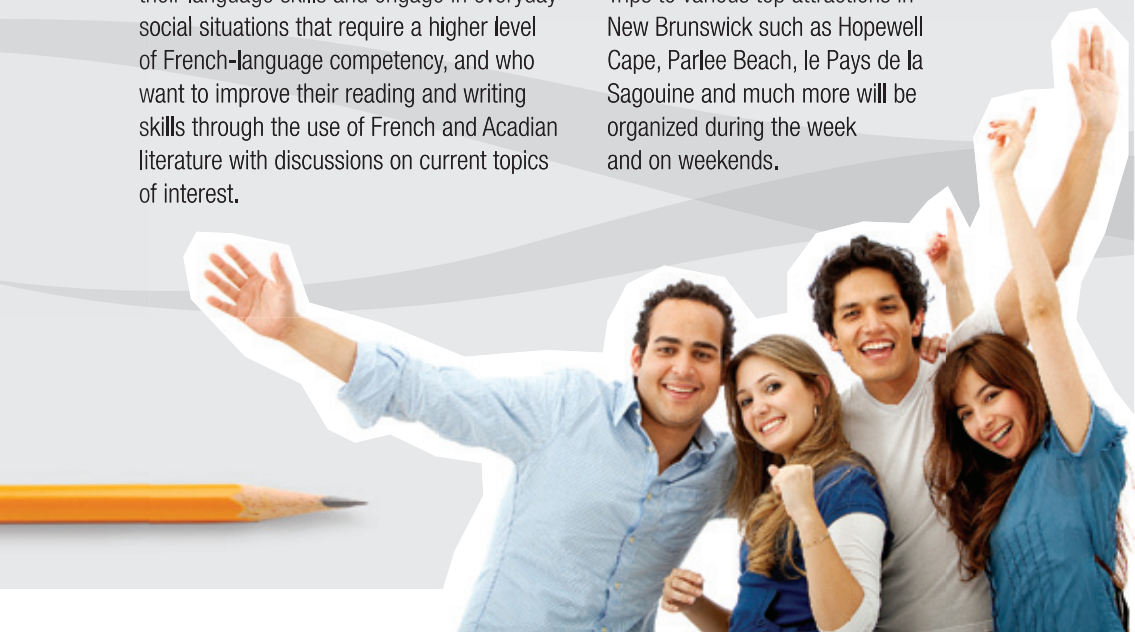

### What to Expect

*A very well-balanced program.*

This program focuses on developing language skills in the areas of listening, speaking, reading and writing at the beginner, intermediate and advanced levels. More complex grammar and vocabulary are introduced at each level.

Oral communication plays a vital role in the classroom, during workshops and socio-cultural activities. The classroom setting will provide you with ample opportunities to interact and share opinions on various topics.

Trips to various top attractions in New Brunswick such as Hopewell Cape, Parlee Beach, le Pays de la Sagouine and much more will be organized during the week and on weekends.
